

Dear Hiring Manager,

I am writing to express my interest in an entry-level opportunity in the IT field. I have recently completed my **Bachelor of Science in Computer Science with Cognitive Systems** and am eager to begin my professional journey by contributing to a dynamic organization.

Through my academic studies, I have built a solid foundation in programming (**Python, Java**), database management (**SQL**), and web technologies (**HTML, CSS, JavaScript**). I have also completed projects such as developing a **Scholarship Management System**, implementing a **Student grade prediction modal**, and designing a **Restaurant Menu** using Figma, which enhanced my problem-solving, teamwork, and logical thinking skills.

As a fresher, I bring enthusiasm, adaptability, and a strong willingness to learn. I am passionate about applying my knowledge to real-world challenges and continuously upskilling myself in emerging areas like cloud computing (AWS), and modern software development practices including Agile methodologies, version control with Git.

I am confident that my technical background, combined with my dedication and eagerness to grow, will enable me to contribute meaningfully to any IT team I become a part of.

Sincerely,
Monika S
